

Asset Management Business Model

Asset Management Strategy

Tapping on our Hong Kong SFC Type 9 license, our goal is to create an additional business stream diversifying into new energy asset management.

This entails a complete strategy encompasses investment, development, construction, and operation. We are plan to meet the demands for overseas capital with partnerships, SPACs, investors, and our own portfolios.

Initial Investment

Invest and trade on licenses or fund new projects

Matured Projects

Acquire completed power stations for recurring revenue

Advisory Services

Advisory for overseas funds to invest in China's new energy equities, bonds, and assets.

Portfolio Investment

Participate in bonds, ABS (Asset-Backed Securities), REITs, IPOs, etc.

Basic Structure
